You speak, write a letter, or make a telephone call. Your words carry a message. People communicate (交际) with words.

Do you think you can communicate without words? A smile on your face

shows you are happy or friendly. Tears in your eyes probably tell others that you are sad. When you put up your hands in class, the teacher knows you want to say something or ask questions. In China you shake your head, and people know you are saying "No". You nod and people know you are saying "Yes".

Other things can also carry messages. For example, a sign (标识) at the bus helps you to know which bus to take. A sign on the door helps you to know where to go in or out. Have you ever thought that there are a lot of signs around you and that you receive messages from them all the time?

People can communicate in many other ways. An artist can use his drawings to tell about beautiful mountains, the blue sea and many other things. Books are written to tell about all the wonderful things in the world and also about people and their ideas. Books, magazines, TVs, radios and films all help us communicate with others. They can help us to know what is going on in the world and what other people are thinking about.

七、阅读短文，根据短文内容回答问题。(每小题 2 分，共 10 分)

(请将此题答案作答在答题纸上)

On a very hot day, it is hard to know what to do to feel good. If you run around, you may feel sick in your stomach. However, if you just sit quietly and do nothing, you may feel bored. Are there things you can do to feel good and have fun when you're hot?

Perhaps playing in water is a good choice (选择) to make you cool down. Taking a cool bath or shower, or even washing toys in a pan of cool water can also make you feel good on a hot day. Besides, you can read stories or paint in front of a fan. You don't need to move your body very much. These are just some of the cool things to do on a hot day.

Also, it's important for you to drink water. On hot days, you can lose about 16 glasses of water in one day. If you feel thirsty, you are already short of water. So don't wait for thirst before you start to drink. You should try to drink as much water as you lose every day. Mixing a little fruit juice into your water is a fun way to help you drink a lot of water.

The food you eat also makes a difference in how you feel in hot weather. Cold foods such as ice cream and drinks with some ice can cool down your bodies. Fruits and vegetables are also helpful to stay cool. So plan a healthy menu for a hot day—one that doesn't need any cooking.

57. Is it easy to know what to do to feel good on a hot day?

58. Is playing in water a good choice or a bad one?

59. How much water do we lose one day in hot weather?

60. What kind of drinks can help us stay cool?

61. What is the writer's purpose (目的) of writing this passage?
