Playing a musical instrument is a great hobby to have. I started playing the piano when I was five years old and still really enjoy it now. It's a great way to relax and cheer me up. When I'm feeling down, when I lived at home with my parents, we had a lovely brown piano in the house. I learned to play the piano for five years and I had

piano lessons every week.

When I went to university, I had to leave my piano behind. But I wanted to play the piano so much. I spent all the money. I had a new e-piano. It was quite difficult to get it from the music shop to my house. I had to take a friend with me to get it into a taxi and then carry it to the door. I was very glad I bought it. I was able to play whenever I wanted. When I was studying or writing a paper, I used to take a break to play something. It really helped me become happy again!

Now I am on my year abroad. Unluckily, I don't have a piano any more. I wish that pianos were as easy to move as guitars because I really miss spending time on my hobby. When I go home for Christmas. I will drive my family mad because I will play the piano all the time. It probably won't sound very nice because I haven't had any practice!

Blue Lightning

Sally loved cars more than anything else. This spring she thought of building a go-kart to enter for the Go-Go Race. So she asked her dad for help.

"Well," he said. "How about this, you do some research first and then come back to me with a design."

A week later, Sally brought her notes and drawings to dad. She named her go-kart "Blue Lightning". Dad looked over her work, thinking: "Well, that's interesting!" he said. "Have a try, just build Blue Lightning as you've designed."

Over three weekends of hard work, Sally turned her design into a real working go-kart and painted it light blue. Dad asked her to take it for a test drive. Sally agreed. After she did that, Sally drove back to dad. "Well," she said. "Now I know why you wanted me to have a test drive."

"Oh, do you?" he said. "Please share."

"When I drove fast, there was a lot of push back," she said. "I think it's because of the lightning bolt (闪电) shape."

"Very good!" Dad said.

"So, why didn't you tell me about that problem in the first place?" Sally asked. Dad laughed. "Where's the fun in that? If you give a man a fish, he'll eat for a day. But if you teach a man to fish, he'll eat for a lifetime."

Sally said, "I see. Anyway, designing is half the fun!" Dad smiled. "Good. Sometimes, learning happens during the process. We learn how to do something right by doing it a few times first and making mistakes along the way. " That encouraged Sally and she worked even harder. When she showed dad her new go-kart, he nodded with pride. Finally came the race. Sally wasn't worried about whether she would win in her mind, she had already won, by building something better than ever before. 45. Sally thought of building a go-kart to A. practice driving B. play with friends C. enter for a race D. do some research 46. How long did Sally spend researching and designing the go-kart? B. two days C. a week D. two weeks 47. What did Sally's dad ask her to do after she built the go-kart? A. To paint it light blue. B. To take a good rest. C. To give it a cool name. D. To have a test drive. 48. Sally's story mainly tells us that ____ A. winning a race is important B. learning happens during the process C. driving experience is necessary D. fishing brings us a lot of fun 七. 阅读短文,根据短文内容回答问题(共10分,每小题2分) Americans with small families own a small car or a large one. A small car can hold four persons and a large car can hold six persons but it is very crowded. A van hold seven persons easily, so a family with three children could ask their grandparents to go on a holiday. They could all travel together. Mr. Hagen and his wife had a third child last year. This made them sell a second car and buy a van. The sixth and seventh seat are used to put other things, for a family of five must carry many suitcases when they travel. Americans call vans motor homes. A motor home is always used for holidays. When a family are traveling to the mountains or to the seaside, they can live in their motor home for a few days or weeks. All the members of a big family can enjoy a happier life when they are traveling together. That is why motor homes have become very popular. In America there are many parks for motor homes. 49.
