## C

Now students' English handwriting(书写) gets worse and worse. That makes their teachers feel worried. Is your English handwriting beautiful? If not, here are four steps that really work!

### ● Use paper with lines

Using paper with lines can keep you writing straight instead of up or down when you write English words or sentences. Those lines on the paper can help you to write words in the right size. Be sure to fill the lined space completely. And make sure those capital letters are written properly.

### ● Slow down

If your writing is hard to read, try slowing down a little. For some kids, going slower makes the handwriting clear. If you write too fast, it's hard for you to stop where you should, and even worse, you may make more mistakes.

### ● Hold your pencil right

When you hold your pencil the correct way, writing is much easier. Some kids press

down really hard when they write. That makes the handwriting not nice. Try to be relaxed and don't hold the pencil so hard. Let your writing appear(显得) nice and clean. If you do so, people will guess you are a student with a good habit.

● **Draw more pictures**

Drawing can improve your handwriting. You need to use the skills to control your pencil better when you are drawing pictures. Even though you have no chance to draw at school, you can practice by yourself at home.

Handwriting is very important. Imagine you are a world-famous movie star or a well-known sports player, what do you do when your fan run up to you? Give them your **signatures**, of course!

- ( ) 53. How many pieces of good advice does the passage give us?  
 A. one.            B. two.            C. three.            D. four
- ( ) 54. What does the underlined word "**signatures**" mean?  
 A. 亲笔签名      B. 摄影作品      C. 书法作品      D. 画册
- ( ) 55. What can be the best title for this article?  
 A. Good Handwriting Needs a Good Pencil  
 B. Using Paper in Line  
 C. Making Your English Handwriting Perfect (完美)  
 D. No Handwriting without Drawing
