题目①

Dear Peter,

How is it going?

We will visit the Science Museum next week. I'm writing to invite you to join us. We will meet at the school gate at 8 o'clock on Monday morning. Then we will go there by bus.

We will have various activities there. First, there will be a guide show us around the Museum. Then, we will do some experiments. At last, we will see a short 4D film. I'm sure you will enjoy it.

In order to get more information, you'd better take a pen and a notebook so that you can take down something that interest you most. What's more, you can take a camera. If you want to get more, you can search online.

If there is anything that I can do, please let me know.

Yours,

Li Hua

题目②

The PE Examination is coming in May. I am trying my best to practice so that I can get a satisfied result. Although I realize it won't be easy, there is no doubt where there is a will there is a way.

I practice doing exercise hard in my daily life. To begin with, I make up my mind to catch up with my classmates. What's more, I try my best to keep running every day and practice playing volleyball. My teachers and classmates encourage and support me all the time.

To be honest, I try my best to practice, not only because I can pass the exam, but also I want to make me strong.
