When I look up again, she goes away, and so does my exam paper! I don’t know what to do. I look everywhere for my paper, but I can’t find it. Have a look at the picture. It's called a 'yurt'. You might ask:

- What is a yurt?
- How is it like to live in it for a week or two?

A yurt comes from Mongolia, Siberia and Turkey. It's a circle-shaped tent made from animal skins.

**a yurt, a circle-shaped tent**

When talking about how big a yurt is, the answer isn't easy because it can be different from small ones for only one or two people right up to large party-sized yurts! Yurts in old days would be smaller because people had to be able to put them up, take them down and then go with them. It's a living or sleeping place at first, but now the use of yurts is for a break time where people can get fun during holidays.

Yurts are made out of a wooden framework (木质框架) with animal skins before. These are good to keep people warm, dry and comfortable—but nowadays yurts change a lot. A modern yurt is made out of canvas (帆布) —but the framework is same. However, as time goes, you may find yurts using different things and ways of building.

A yurt holiday can be really great—but you need to make sure you are fully ready for it. It still isn't quite like staying in a hotel after all.

- ◇ Make sure you have enough clothing to keep yourself warm. It can get cold at night.
- ◇ Don't forget to bring something to light up the midnight.
- ◇ Bring things for you to cook outdoors. You may want to have an outdoor campfire.

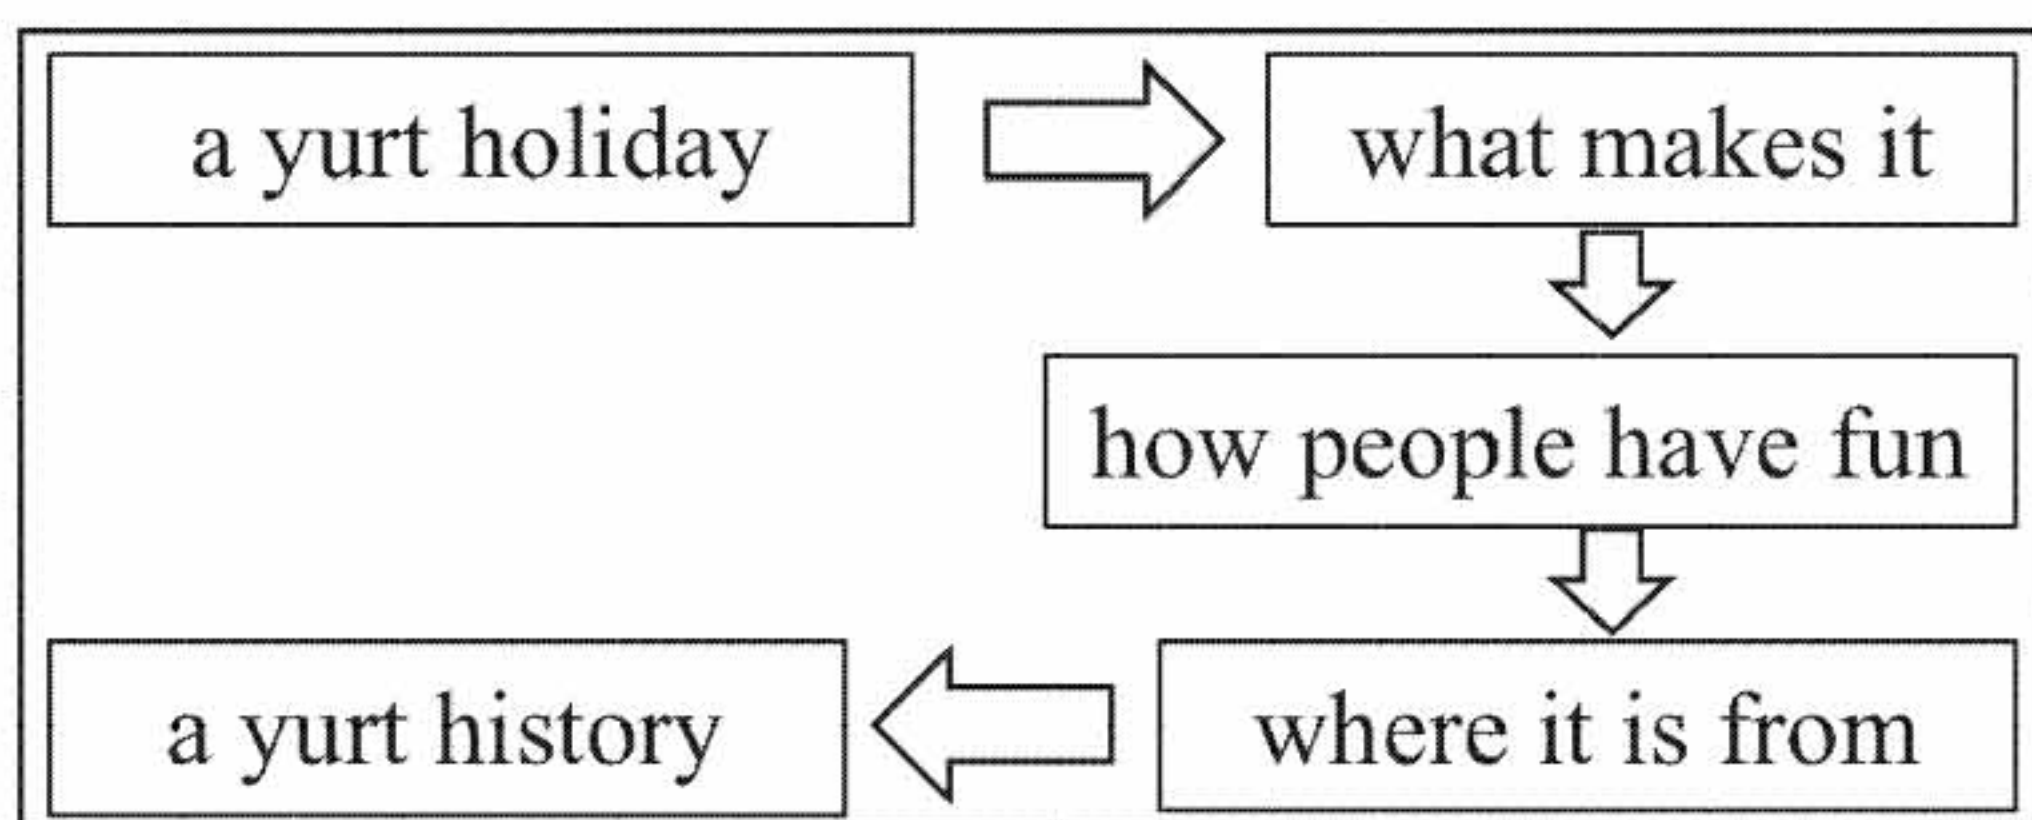

24. How does the use of a yurt change?

- A. People first live in it but later go with it.
- B. People first build it but later take it down.
- C. People sleep in it for life but now for fun.
- D. People use it for a break time but now for life.

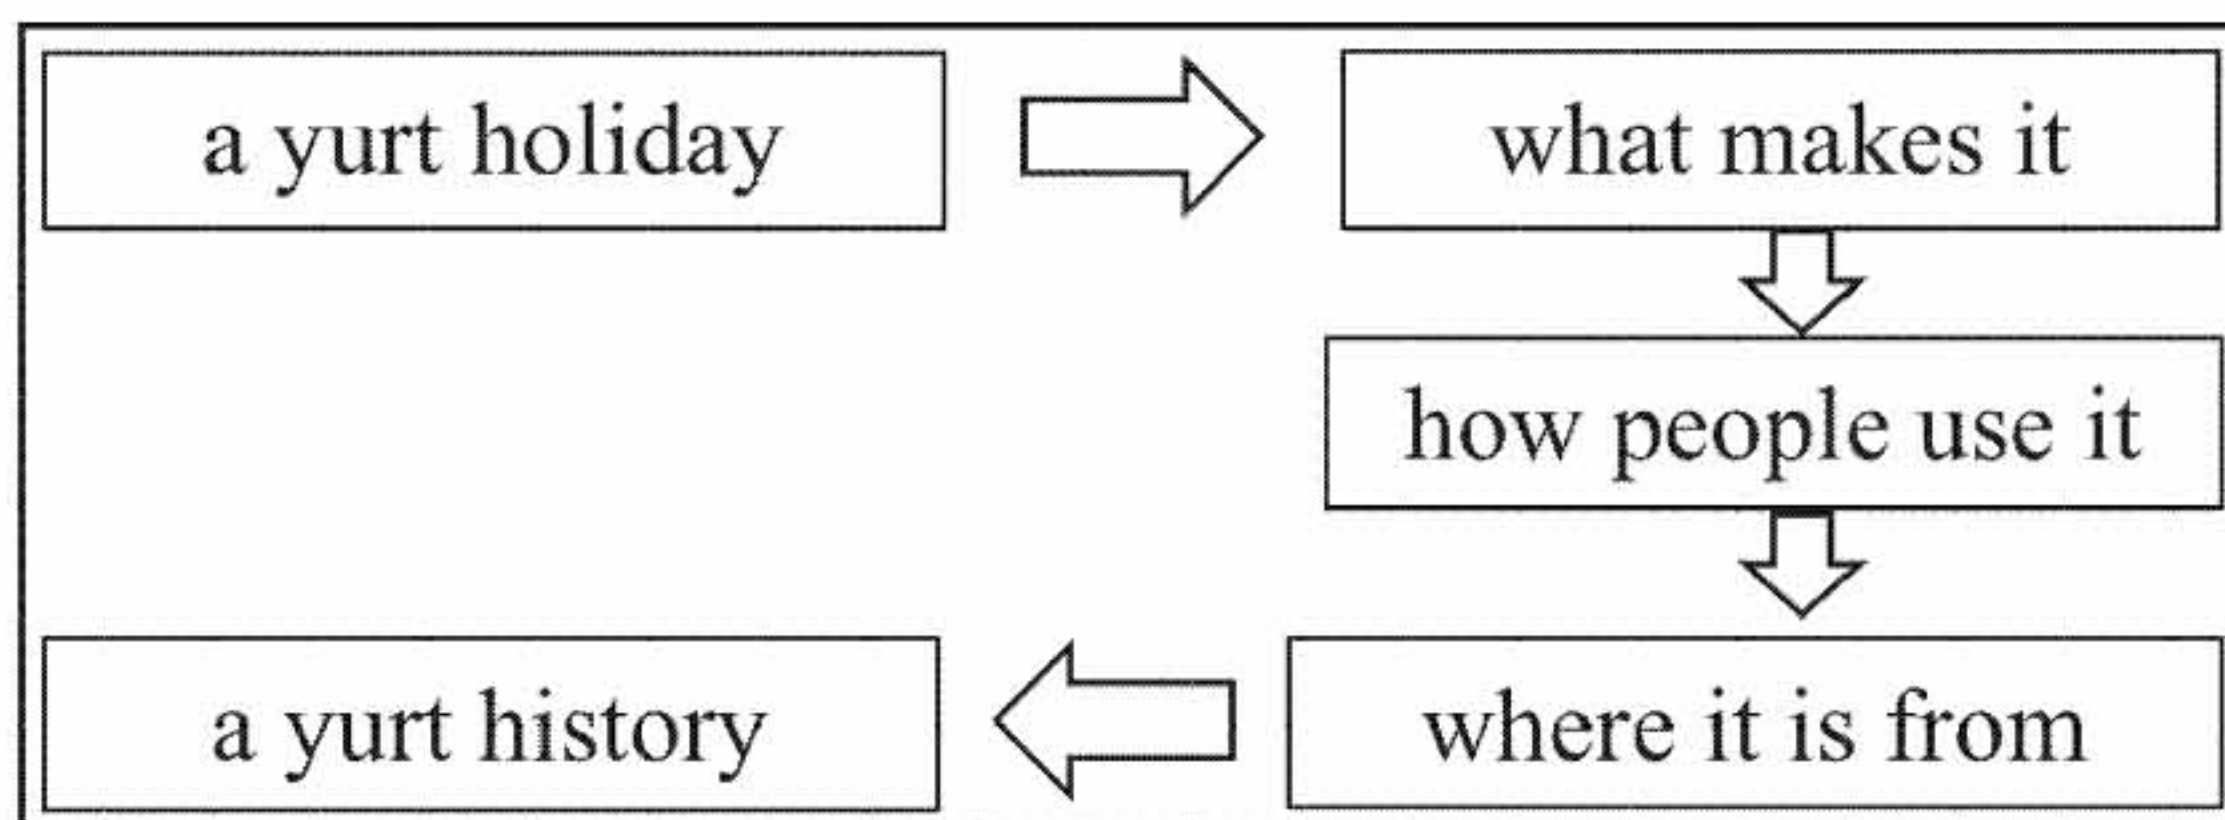

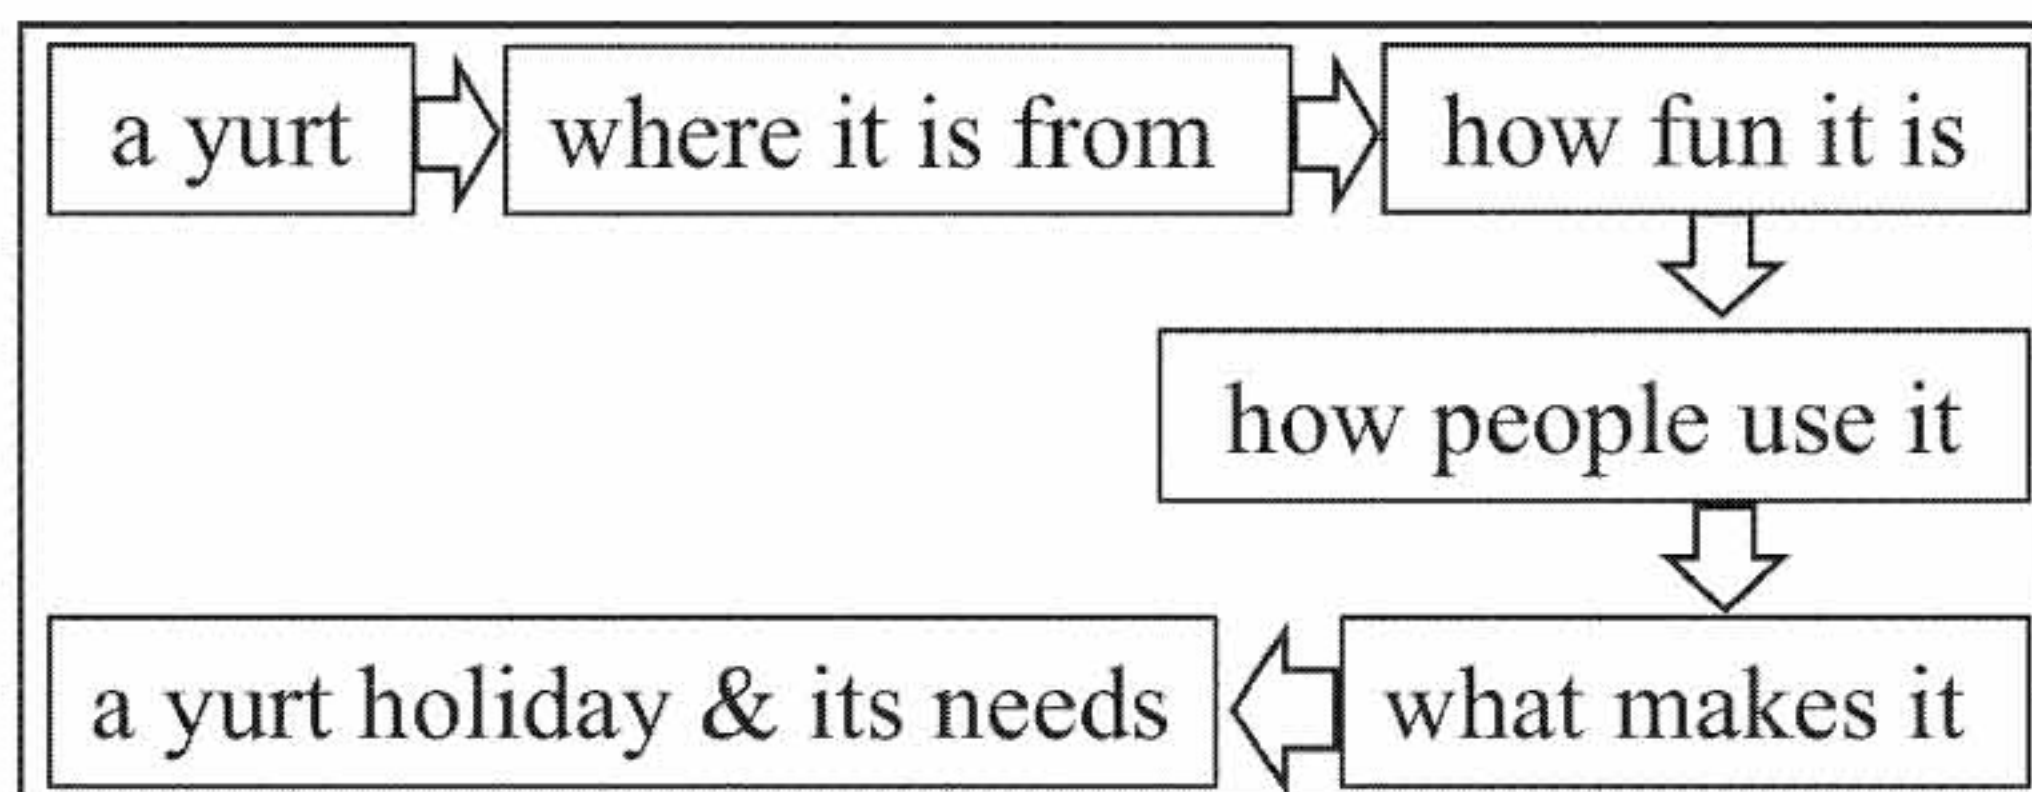

25. Which of the following mind maps is right for the passage?

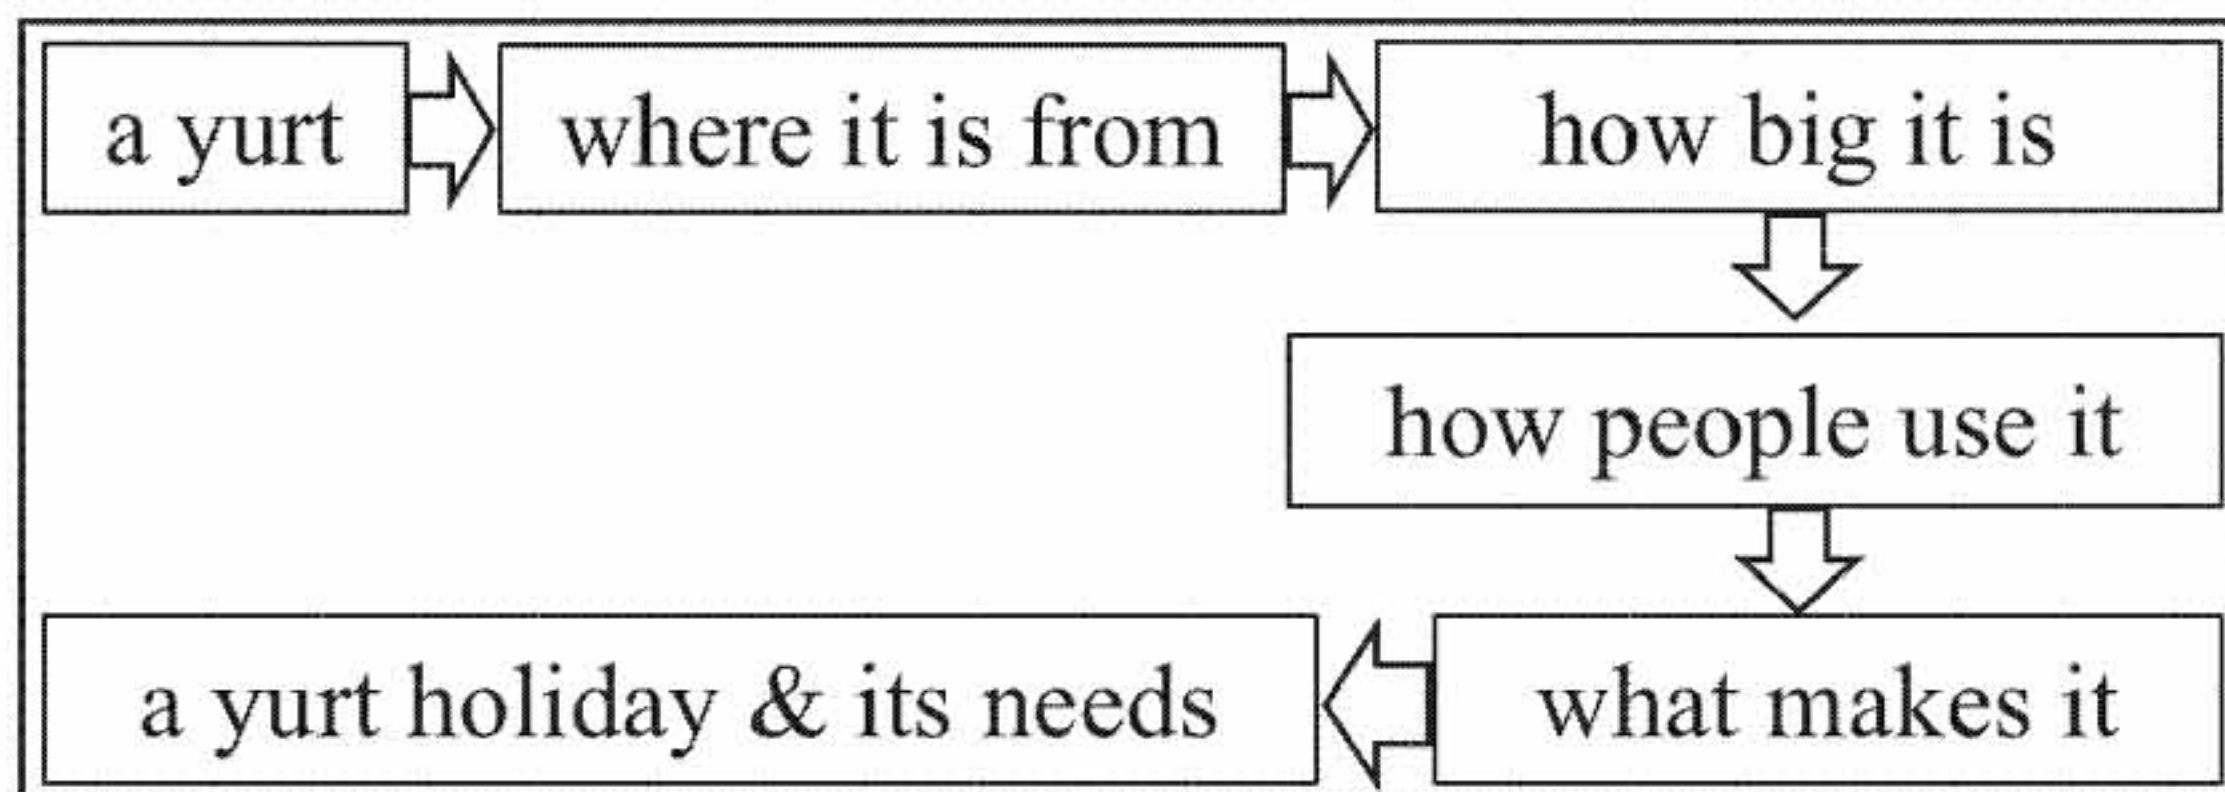

A.

B.

C.

D.

26. How do you think of living in a yurt for a week? Why do you think so?

D

In the US, middle school students have to take four subjects: English, Math, Science and Social Studies, then they can think about the **electives**, such as music, PE, art, drama and so on. They may get two or three from the list into their timetable. In China, many middle schools start to have the electives, too. The following ideas can help make a good timetable.

**First, try something new.**

Try new things you may never think about. In this way, you can learn a lot of new things and find the one you really love at last. Some students don't want to take art or PE, because they think they are not good at it or they don't like it. In fact, you should try it yourself to see if it is something you may enjoy.

**Second, try something musical.**

Music is another language and it can teach students to think and learn differently. Middle school is a good time for you to learn about your talent on music. You should try to learn some music when you have time to do so and make it a hobby. You can benefit (受益) from it in the future.

### Third, try something useful.

Most middle school teachers teach some other subjects at the same time. For example, a middle school math teacher may also teach science. Skills and information (信息) you learn in electives can help you learn other subjects. They can even be useful in high school. So you can think about the things you like first, and choose something really useful for you.

Choosing electives is not easy as looking at the list. But it can be very important for your study.

27. What does the underlined word “**electives**” mean in Paragraph 1?

- A. Subjects that you would like to study.
- B. Subjects that the teachers get for you.
- C. Subjects that you try hard to work on.
- D. Subjects that you have to take and learn.

28. Which of the following is TRUE according to the passage?

- A. Many students take PE because the teacher is famous.
- B. High school is the time to know about talents on music.
- C. Students may find the same teacher for other subjects.
- D. It is really personal for students to check the timetable.

29. Who is the passage writing to?

- A. Schools.
- B. Teachers.
- C. Parents.
- D. Students.

30. What is the passage mainly about?

- A. Ideas for taking school subjects.
- B. Ideas for meeting a good teacher.
- C. Ways to find a great middle school.
- D. Ways to learn about the electives.
