My Plans for the Winter Vacation

The winter vacation is coming. In order to have a rich and meaningful vacation, I have lots of exciting things to do.

First, as for my study, I am going to keep on reading books to broaden my horizons. Second, I want to visit my grandparents, because I haven't seen them for a long time and I miss them very much. Last, I will take up a new hobby, like playing football, to keep fit.

All in all, I will try my best to improve myself during the winter vacation.

Sample 2:

As we all know, all parents care about their children, but most students often have some problems with their parents. They think their parents don't understand them and sometimes have different ideas about their choices.

To solve the problems, I have some advice. First, we can sit down and talk with our parents patiently so that they can understand us better. Second, if we find it hard to talk with them face to face, we can also write a letter to let them know our opinion.

In my opinion, problems and worries are normal in life. Don't run away from the problems, because parents are always there to help us and support us!

二、请听一段短文，根据所听到的短文内容和提示信息，将所缺的关键信息填写在答题卡的相应位置上。短文你将听两遍。(共 8 分，每小题 2 分)

It's hard work for teenagers to take on a part-time job, but they can get more than simply money.

Firstly, they may develop better time management skills. As they have less free time than others, they have to be better planners and make sure they finish every task in time. They may miss some fun activities, and they learn to make decisions on what to deal with first.

Secondly, they can have their own money. As they grow older, making money on their own can help them become more confident. It also allows them to spend the money as they wish and to have fun. Besides, they may learn to take money more seriously because they worked for it.

Thirdly, students who earn their own money can get lessons on spending wisely. They are less likely to waste money. They would like to spend it on things that are necessary, such as textbooks. At the same time, they can save for things that are expensive, such as sports watches.

Fourthly, students who take part-time jobs get to know more people, either students of their own age, or adults who are the best in some fields. They can learn to get along with different people. Moreover, as they work, they understand the importance of working as a team.
