Most people want to be happy, but few know how to find happiness. Money and success alone do not bring lasting (长久的) happiness. Aristotle (亚里士多德), a Greek thinker, said, "Happiness depends (取决于) on ourselves." In other words, we make our own happiness. Here are a few suggestions to help you be happier.

The first secret of happiness is to enjoy the simple things in life. Too often, we spend so much time thinking about the future — for example, getting into college or getting a good job — that we fail to enjoy the present. You should enjoy life's simple pleasures, such as reading a good book, listening to your favorite music, or spending time with close friends. People who have several close friends often live happier and healthier lives.

Another secret to living a happy life is to be active, and have hobbies where you forget your problems and time. Many people experience dancing, or playing a sport, such as swimming. You can forget about your problems, and only think about the activity.

Finally, many people find happiness in helping others. Studies show that people feel good when they spend their time helping others. If you want to feel happier, do good things for someone. You can help a friend with his or her studies, go shopping to buy food for an elderly person, or simply help out around the house by washing the dishes.

48. The second paragraph tells us that _____.
- A. we shouldn't think about our future
 - B. some people fail to live a happy life
 - C. happiness is to enjoy the simple things in life.
 - D. the more friends you have, the happier you will be
49. The passage gives us _____ pieces of advice on happiness.
- A. one
 - B. two
 - C. three
 - D. four
50. Which of the following is not mentioned in the passage?
- A. Reading a good book.
 - B. Traveling to a foreign country.
 - C. Playing a sport.
 - D. Spending time with close friends.
