题目①

Dear Peter,

How is it going?

I'm writing to tell you something about my school's volunteering activity for the environment in Pinggu. Last Sunday morning, I went to the Renmin Park with my classmates. We cleaned the show windows first, then we picked up the litter from the grass and the paths. We also collected a lot of waste paper and bottles.

After two hours' work, although I was tired, I felt very happy. I think it's our duty to beautify the environment in Pinggu.

Anything new at your school?

Yours,

Li Hua

题目②

I want to say thank you to my classmate. Her name is Wang Fang, because she helped me a lot in my study. When I started to learn English, I found it difficult for me. I almost gave up learning it. At that moment, she came up to give me a hand. She told me how to remember the words patiently.

With her help, I have made great progress. So I want to express my deep gratitude to my best friend.

I want to say "I miss you" to my mother, because I live in school now. I can only stay with her on weekends. My mother is the most important person in my life. When I am in trouble, she always helps and encourages me. She also takes good care of me. Everything is clear in my mind.

Now I must depend on myself at school. I want to tell her: I miss you! But don't worry about me.
