题目②:

参考范文:

Beijing is developing quite fast these years. The sky is becoming much bluer, the air is becoming much fresher, and our life here is more and more convenient. A new airport will open in Beijing in 2019. It's going to be the world's biggest airport, which allows for easier flight connections. A lot of new schools are opening for the needs of the citizens. Although I'm only a student at the present time, I think I can still do a lot for a brighter Beijing. I'll start with my neighbourhood to bring more changes. I can call on more people to protect our environment, save water and other natural resources, and guide the foreign visitors to have a better experience here. I'm sure Beijing will always be one of the most important cities in the whole world.
