When do you get to school every day? How many hours do you stay at school? After a day's study and activities, do you feel active or just feel **worn out**? That is to say, do you want to go on with your homework at home or just want to go to bed without having dinner?

Zhejiang primary schools are going to start school later. Students in the first and second grades will get to school no earlier than 8:00 a.m. In this way, children can get more sleep.

Students from Zhejiang No. 1 Primary School like this idea very much. Liang Yinuo is a first-grader from Hangzhou. “I think it’s a good idea. I can get up later, at about 7:20, and have breakfast at home. After that, I get to school at 8 o’clock.” she says.

Would you like to go to school earlier or later? Here are some students’ ideas on the same question.

**Lv Rongbo, 9, Dalian**

I go to bed and get up early every day. I usually get to school at 7:50. So I hope our school starts earlier. That way I can finish school early and then play sports or do my homework freely.

**Yan Siyu, 7, Hong Kong**

I usually arrive at school at 8:15. I hand in my homework, and then I start to read my favourite books. My school’s schedule (作息時間) is great. It’s not too early or too late.

**Shao Yixiao, 10, Xi’an**

Starting school later is good for lower grade students. It’s difficult for the young kids to start their school day at 8:15. Most kids, including (包括) me, get to school at around 8:10.

As students from different places have different ideas, it is a long way to go to help students have more free time and get enough sleep. Anyway, schools are trying hard and we are sure to see an even better future for the kids.

Everyone knows the dangers of fires, so it’s good for a family to learn how to prepare for a fire in daily life. Here are some suggestions.

## Remember to buy extinguishers.

Extinguishers are necessary in a house and every family member should learn how to use them. It's a good idea for the whole family to do fire practice at home. In this way, parents can teach children about fire safety.

## Don't forget to put a smoke alarm (警报器) in the house.

extinguishers

Smoke from a fire can make the alarm go off. Then it makes a sound which is loud enough to tell everyone to leave the house right away. Besides that, it's also important to check if the alarm works well regularly.

## Try to make escape (逃生) plans.

Family members should know all the ways out of the house very well. When a fire starts, everyone can follow (遵循) the plans to get out fast. Remember that part of the plan should be to check all the windows to make sure they can be opened easily.

27

First, never open a hot door. The fire can grow more quickly if you open the door. You'd better stay close to the floor. Smoke can be more dangerous than fire. In a fire, the best air is near the floor because smoke usually goes up. Second, if your hair or clothes catch fire, do not run, just stop. The fire burns fast because of more air. Drop! Lie (躺) on the floor. Turning over and over will make the fire go out. Put a blanket around you to keep air away from the fire that may still be on you.

There are many reasons why a fire happens, but a wise family is ready all the time. Apart from all the tips above, you should also call 119 for help when you reach a safe place outside your home.

25. Why should a family put a smoke alarm at home according to the passage?

- A. To let family members learn how to use it.
- B. To help family members know why the fire starts.
- C. To tell family members to leave the house quickly.
- D. To make family members check if the alarm works well.

26. What can we learn from the passage?

- A. Only parents need to practice for a fire in the house.
- B. Everyone should learn the escape plans and follow them.
- C. One should open the door to make the fire get slowly.
- D. We should phone 119 at once when you are in a fire.

27. Which of the following would be the best heading for Paragraph 5?

- A. Always follow these rules in a fire.
- B. Always put out the fire on your hair.
- C. Always keep air away from the fire.
- D. Always stay near the floor during a fire.
