## 题目 2

*Some new rules are added in our school during the COVID-19 pandemic.* For example, we have to wear masks at school. We need to take our temperature before entering the campus. And, we are not allowed to stay too close to each other.

I think all of the new rules are necessary in the special period. They can not only help to control the pandemic but also help to prevent the spread of many diseases like flu.

Let's keep the rules.

#### Text 1

W: We need a gift for Linda. Her birthday is tomorrow.

M: How about this music player?

W: It's nice, but look at the price. It's really high!

M: Yes, it is. Let's look for something else.

W: Look at the T-shirt. It's lovely.

M: It's great and not that expensive. I think she will love it.

W: Her favorite color is blue. Let's take the blue one with a teddy bear on it.

#### Text 2

M: Hello! This is Mark living next door. May I speak to Lily?

W: Sorry. Lily has gone to the shopping mall. Can I take a message for her?

M: Yes, please. Our class plan to climb Xiangshan this Saturday morning, since we really want to relax ourselves after the final exam. Lily wasn't in the classroom when we talked about it. We wonder if she would like to join us.

W: It's very kind of you to invite her. So, when and where will you meet?

M: We'll meet in front of our community library at 7:30 am, and hopefully we'll arrive at Xiangshan Park at about 8:30 am.

W: OK. I'll tell her as soon as she comes back.

M: Thank you very much.

#### Text 3

M: How do you usually get to school, Betty?

W: I take the subway most of the time. I seldom go by bus or by car because of the heavy traffic jams in the morning.

M: That's true. There are too many cars running on the road now. By the way, do you know when the car was first invented?

W: Not really.

M: I just read an article about it. The car was invented in 1885, and its inventor was an engineer named Karl Benz.

W: Did the article give more information about him?

M: It sure did. He was born in 1844. He used to work in a local machine shop, and always dreamed of making a machine that could run without horses. He tried a lot of times and finally made it.

W: What a cool story!

#### Text 4

Have you ever noticed blind people around you? They may walk or move difficultly because they're not able to see. But they can still have good lives with the help of the guide stick or a guide dog.

The life of blind people is full of risks. In some countries, they usually use a white stick to help them move around or travel. It's an important tool for them, since it can help blind people find out their surroundings and guide their way. It's also a symbol to make people notice blind people and not to block their way.

We always think we should help people who are in trouble. However, when you see blind people walking with a guide dog, don't rush to help too fast, because maybe they don't need your help. And don't talk to a guide dog while it is at work. Guide dogs work with their owners as a team, so don't treat them as pets. They are good friends as well as helpers for blind people.

#### Text 5

W: Look! Whose pencil case is this?

M: It might be Bob's. He looked for his pencil case just now.

#### Text 10

Hello, everyone. I'm Chris. Studying history and memorizing dates and events can be stressful. However, the following tips can help you do better.

First, fill some colors in the book. Use different color pens to highlight important **points** and record them in colors. This will help when you prepare for exams.

Second, create charts and timelines to connect events. Instead of learning different events separately, you can create a timeline covering all the events. You also need to prepare family trees and outlines to get a general view of the course.

Third, use mind maps. The use of mind maps can help you create stronger connections and memorize all the information easily.

Last, practice writing as much as you can. You must take down what you learn and divide each event into causes and results.

Hope my advice will be helpful.
