39. 参考范文

题目①

Dear friends,

It's my great honor to introduce the activities in our school. We have different kinds of activities, such as sports day, singing competitions, art festivals and so on. All of them are very interesting and meaningful.

Among them, the Chinese art festival is the most special one. It is held in May every year. During the festival, we make kites, perform Peking Opera and do Chinese paintings. The art festival gives us a chance to experience more outside the classroom. It not only enriches our knowledge but also helps us have a better understanding of traditional Chinese culture.

Thank you!

题目②

Information technology provides various ways to study. I have more chances to take classes online. I can also practice oral English with foreigners from all over the world. Many apps provide me with different kinds of learning experiences, such as drawing, paper-folding, singing and dancing.

In my opinion, it benefits me greatly in many ways. Firstly, it gives me more choices. I can choose the most suitable and effective way to learn at any time. Besides, it's convenient for me to study anywhere. What's more, it broadens my horizon in a fun way and helps me to keep up with the times.

Although it benefits us a lot, we should be careful not to spend too much time on it and use it properly.
