①

Dear Peter,

How is it going?

I'm writing to invite you to visit the Capital Museum with my class. We are going to meet at the school gate at 7:30 a.m. this Friday. In the museum, we can experience local culture, see folk art and many other items that are on show. While visiting, we are not supposed to make noise or litter around; What's more, we shouldn't touch the exhibitions either.

I'm looking forward to your early reply.

Yours,

Li Hua

②

In our daily life, we have many fantastic inventions. My favorite invention is the computer. It is used for watching movies, talking with friends, shopping online and so on. I like the computer because I can not only get information I need but also relax myself by enjoying the music on it. The computer makes our life so convenient and I'm sure it will benefit us in more ways in the future.

Good morning everyone. Welcome to our rock climbing club. Today, I am going to talk about the safety rules you should follow on rock climbing.
Now, rock climbing has become a very popular sport in many parts of the world, and the number of rock climbers has greatly increased over the past 40 years. However, accidents always happen, including the deaths of some experienced climbers.
So, to start with, get some training before you do it! Rock climbing isn't something you can just learn by having a go. You should take a course to learn some basic skills. Our club provides different courses for different levels which you can take any time. Of course, you need to practice a lot on a climbing wall before you try real rock climbing.
Next, get proper protective equipment with you, such as a safety helmet, ropes and climbing shoes. It is also necessary to carry waterproof clothing, energy

food and a first aid kit with you.

Finally, always check the weather. Never go out if storms are coming. For climbers, rain and snow are dangerous. Strong wind can cause climbers to fall, too. In fact, bad weather causes most of the serious accidents.

OK. I hope you have learned more about the safety rules for rock climbing and next time you try it, keep them in mind.
