Lily is an English girl. She lives in China with her parents now.

Today is June 3<sup>rd</sup>. It is Lily's birthday. In the morning, before Lily goes to school, her parents don't say anything about her birthday. At school, Lily's good friends, Linda and Ben, say nothing about her birthday, either. Lily is not happy all day. Even the geography lesson can't make her happy. That's her favourite subject at school.

After school, Linda and Ben tell Lily that they can't go home together with her. "They must have forgotten my birthday," Lily says to herself. Feeling a bit sad, she goes home alone.

At about 4:00 in the afternoon, Lily gets home. "Do I need to talk to them about my birthday?" Thinking this, Lily opens the door. "Surprise! Happy Birthday!" everyone in the house shouts. Lily's parents, Linda and Ben are all there. A big birthday cake is on the table. They have a surprise party for her!

44. When is Lily's birthday?  
 A. On June 3<sup>rd</sup>            B. On June 13<sup>th</sup>            C. On July 3<sup>rd</sup>            D. On July 13<sup>th</sup>

Of course you do not want to spend your vacation sick in bed. So what can you do to stay in good health when traveling? There are some tips you should remember when you travel: relax, sleep and eat well.

A vacation should be a time for relaxing but very often it is not. Think about what you do when you travel. There are so many places to visit: museums, shops, parks... You may spend most days walking around these places. This can be very tiring. Do not ask your body

to do too much. A tired body means a weak body. And a weak body gets sick easily. So sit down for a few hours in a nice and quiet place.

Sleep is also important. If you want to stay healthy, you need to get enough sleep. Your hotel room may be noisy or the bed may be uncomfortable. You may not get enough sleep for other reasons. You may want to stay out late at night. Then you should plan to sleep for an hour during the day. That *extra* (额外的) hour can make a big difference.

At last, if you want to stay healthy, you must eat well. That means eating the right food. Your body needs fresh fruit and vegetables, and some meat, milk or cheese.

So, remember this: if you want to enjoy your vacation, take good care of yourself. Give your body some rest. Get enough sleep and eat good, healthy food.

48. What does the underlined word "weak" in Paragraph 2 mean in Chinese?  
 A. 高大的                      B. 矮小的                      C. 虚弱的                      D. 强壮的
49. What does the writer think of sleeping for an hour during the day when we travel?  
 A. Long                      B. Boring                      C. Useless                      D. Useful
50. Which of the following does the writer think is the right food when we travel?  
 ① fruit                      ② meat                      ③ hamburger                      ④ cheese  
 A. ①②③                      B. ①②④  
 C. ①③④                      D. ②③④

51. What is the passage mainly about?  
 A. How to stay in good health when traveling.  
 B. How to have good eating habits.  
 C. How to sleep well when traveling.  
 D. How to spend your vacation.

Chess has a very long history. It is *based on* (基于) an old game from India. The chess we play today is from Europe.

Chess is a two-player game. One player uses the white *pieces* (棋子). The other uses the black pieces. Each piece moves in a special way. One piece is called the king. Each player has one. A player can only move one piece at a time. Then he has to wait for the other player to move before he can move again. The game ends when a player can't move the king. There are a few more rules, but those are the *basics* (基本要点).

Some people think that chess is more than a game. They think that it makes the mind stronger. Chess players always use their heads. They think about what will happen next. These skills are useful both in chess and in life. Chess is a kind of a workout for the mind.

Chess is not just for people. Computers began to play chess in the 1970s. At first, they did not play well. They made mistakes. As time went on, they grew stronger. In 1996, a computer beat the best chess player in the world for the first time. Chess sure has a long way to go.
